

Mersede Rahbar

Senior Frontend Developer

Yerevan, Armenia • +37496170196 • mersede.rahbar@gmail.com • [LinkedIn](#)

A front-end developer with 7+ years of experience developing responsive web apps, primarily in **fintech**, **digital agencies**, and **startups**, focusing on **JavaScript**, **React**, and **TypeScript**. A commitment to delivering pixel-perfect and efficient websites. Contributed to significant projects from conception to release and then to growth with an enthusiasm for continuous learning to present new and elegant solutions.

Relevant Experiences

Senior Front End Developer at [Nito Labs](#) | Full-time, Remote

01/2021 - Present

Nito Labs is a **Fintech startup** specializing in Web3-native solutions and crypto-based digital products.

- Developed a decentralized [exchange](#) using **Next.js**, designed for **swapping** and **trading**, which includes eight distinct sub-apps: OBM, reward, lottery, NFT, AMM, auction, DAO, and bridge
 - Contributed to the creation of a cross-platform crypto [wallet](#) product using Next.js, including a browser extension, desktop application, and Progressive Web App (PWA)
 - Implemented a cryptocurrency ledger [explorer](#) using **React** for searching and viewing ledgers, transactions, and associated data
 - Developed a Web3-based [gaming platform](#) from scratch, leveraging blockchain technologies for decentralized logic, asset management, and user authentication.
 - Integrated and interacted with smart contract ABI using wagmi, enabling secure and efficient interaction with blockchain smart contracts
 - Established Web3 authentication using ConnectKit, allowing users to securely connect their crypto wallets and manage their assets
 - **Optimized** and **upgraded** the codebase from Next.js 13 to 15, achieving **40–90% improvements** in key performance metrics including load time, build speed, and bundle size, resulting in a smoother user experience and more efficient development
 - Refactored legacy codebases and introduced **TypeScript**, increasing project maintainability, type safety, and overall developer productivity
-

Front End Developer at [Nilasoft](#) | Full-time - Rasht

08/2019 - 09/2020

Nilasoft is a **digital agency** focused on web and mobile application development.

- Collaborated in two projects based on **Angular** and **typescript**
 - Enhanced project performance by optimizing data loading
 - Implemented search and category filter features for an **architecture service** platform that facilitates user accessibility
 - Trained three junior developers on the basics of frontend development
-

Junior Front End Developer at [Horoof Negar](#) | Full-time, Rasht

06/2018 - 06/2019

Horoof Negar is a **real estate startup** that aims to eliminate intermediaries in transactions between owner and buyer.

- Developed a **responsive**, mobile-friendly admin and user dashboard, using **REST APIs** to integrate data and improve user interaction
- Collaborated closely with UI/UX designers to analyze design requirements, ensuring seamless integration of front-end development
- Utilized version control systems like **Git** for efficient collaboration and code management
- Worked within an **agile** team environment, actively participating in peer programming sessions to enhance collaboration and productivity to meet project goals on time
